

3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
Paper Presentation Schedule for UNI-TEAS 2024 Part 1 on 6th -7thJanuary 2024
at Shree KKarni Universe College, Jaipur

6th January 2024 - 3:00 PM - 4:30 PM - Technical Sessions 1	
Link - https://meet.google.com/jqi-jedo-omq	
Paper ID	Paper Title
29	An Advance Algorithm and Utility for Identifying Critical Web Vulnerabilities with Exceptional Performance
31	Security Issues on Internet of Things (IoT): Recent Challenges and Countermeasures
169	Elevator-based Earth Tremor Sentinel Technique with MQTT protocol
180	Design and Analysis of a Multipath Routing Protocol to Enhance QoS in MANET
310	A Critical Investigation on Advanced Natural and Synthetic Bio composite of Complex Bone Tissue Engineering Applications
325	IoT-Enabled Predictive Healthcare Monitoring using Machine Learning Models
344	Monitoring And Controlling of Tomato for Quality Storage
404	Anticipating Human Happiness: Exploring Machine Learning Strategies

6th January 2024 - 3:00 PM - 4:30 PM - Technical Sessions 2	
Link - https://meet.google.com/unf-xvzb-pav	
Paper ID	Paper Title
151	An Intelligent Self-Driving Car's Design and Development, Including Lane Detection using ROS and Machine Vision Algorithms
175	An Efficient System Model for Identification of Drug Addiction
186	A study on various applications of EEG signals
195	Smart Electronic Speaking Glove for Physically Challenged Person
203	NLP-based processing of Gujarati Compound Word Sandhi's Generation and Segmentation.
333	Stacked Ensemble-Based Machine Learning Approach for Anomaly Detection in Credit Card Transactions
338	Detection and Classification of Periapical Dental X-Ray Images Using Machine Learning
348	The Impact of Cloud Computing on Plant Health Monitoring

3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
Paper Presentation Schedule for UNI-TEAS 2024 Part 1 on 6th -7thJanuary 2024
at Shree KKarni Universe College, Jaipur

6th January 2024 - 4:45 PM - 5:30 PM - Technical Sessions 3	
Link - https://meet.google.com/yqp-aqbz-wqe	
Paper ID	Paper Title
40	Potential Impacts of online-based Learning 2.0 and Certification on Employability
154	Solar Panel Tracking with Battery Assist and Battery Charging Modes
189	A Hybrid Methodology for Software Development and IT Team Analysis in Manufacturing
202	Correlation of traditional technique and ML-based technique for efficient effort estimation: In Agile frameworks
339	Comparative Analysis of Audio-Video Multimodal Methods for Emotion Recognition
352	Chaos-Based Cryptography for Digital Image Security using Parrondo's Paradox
371	Analysis and Processing of Marketing Analytics in the Banking Sector

6th January 2024 - 4:45 PM - 5:30 PM - Technical Sessions 4	
Link - https://meet.google.com/aoa-wofc-ojw	
Paper ID	Paper Title
183	Recent Investigation On Artificial Blood Vessel- Based Biomaterials: A Detailed Review
191	An In-Depth Analysis of CNN's Capabilities Regarding the Detection of Brain Cancer
213	Wireless Sensor Network Energy Optimization by Frog Leaping Genetic Algorithm
326	Optimizing Resource Allocation in Healthcare Facilities through IoT and Machine Learning Predictive Analysis
357	Utilizing Machine Learning-Based Algorithms to Predict Student's Future
399	Designing a Web application for text analysis
407	Video Noise Analysis using Frequency Domain Algorithm

3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
Paper Presentation Schedule for UNI-TEAS 2024 Part 1 on 6th -7th January 2024
at Shree KKarni Universe College, Jaipur

7th January 2024 - 10:30 AM - 11:45 AM - Technical Sessions 5	
Link - https://meet.google.com/xcr-pfyw-dcp	
Paper ID	Paper Title
101	Tech Titans of Tomorrow: India's Leading Artificial Intelligence Startups
188	Challenges in making OCR of Gujarati Newspaper
192	A Comparative Evaluation of Docker Image Files in Different Programming Environments
312	Smart Anaesthesia Level Monitor during Surgery in the Intensive Care Unit
346	Design and Implementation of an IoT-Based Control System for Precision Food Manufacturing
362	A Comparative Analysis of Sign Language Recognition Approaches across Varied Sign Languages
401	Integrated Dashboard for Generative AI Model

7th January 2024 - 10:30 AM - 11:45 AM - Technical Sessions 6	
Link - https://meet.google.com/iug-crvy-cth	
Paper ID	Paper Title
153	Text Summarization for Kannada Text Documents: A review
174	RFID-based COVID-19 prevention system
193	Multimodal Fusion-Based Hybrid CRNN Model for Emotion Prediction in Music
194	Multimodal Analysis of Induction Motor Signals for Power Quality Abnormality Detection using Wavelet-RBF Approach
328	Exploring Theoretical Artificial Intelligence Applications: HR's Emerging Frontiers
337	Exploration of Gesture and Facial Expression Based Emotion Recognition Models
396	A Fundamental Study of Natural Language Processing Approaches

3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
Paper Presentation Schedule for UNI-TEAS 2024 Part 1 on 6th -7th January 2024
at Shree KKarni Universe College, Jaipur

7th January 2024 - 12:00 Noon - 2:00 PM - Technical Sessions 7

Link - <https://meet.google.com/kbn-wisb-fgn>

Paper ID	Paper Title
178	Phishing Text Email detection by Natural language processing with Machine Learning
197	Non-Invasive Monitoring of Patients Diagnosed with Varicose Veins and Implementing Automated Treatment
323	Smart Glove with Real-Time Patient Monitor System
345	Algorithmic Assessment of Financial Performance Among S&P BSE Private Banks in India with PROMETHEE
355	Classification of Venomous and Non-Venomous Snakes using Transfer Learning with MobileNetV2
394	A Comparative Study of Globally Popular Sign Language Recognition System

7th January 2024 - 12:00 Noon - 2:00 PM - Technical Sessions 8

Link - <https://meet.google.com/ufa-bfjd-pqy>

Paper ID	Paper Title
182	Gyroscopic Patient Support System for Partially Paralyzed Patients
309	House Price Prediction Using the concept of Machine Learning
335	Deep Learning Approaches for Real-time Data Analytics in IoT Sensor Networks
340	A Comprehensive Analysis of NOMA in 5G Futuristic Mobile Communications
349	Utilizing Convolutional Neural Networks and Ridge Regression for Alzheimer's Disease Detection
368	Addressing Imbalanced Data in Stroke Prediction: An Oversampling Approach for Improved Accuracy”

3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
Paper Presentation Schedule for UNI-TEAS 2024 Part 1 on 6th -7thJanuary 2024
at Shree KKarni Universe College, Jaipur

7th January 2024 - 12:00 Noon - 2:00 PM - Technical Sessions 9

Link - <https://meet.google.com/yau-fmia-usn>

Paper ID	Paper Title
199	Exploring Human Gesture Recognition: Bridging Communication Gaps through Dynamic Signal Analysis
200	Instantaneous Interpretation into Sign Language for the Hearing Impaired
301	Road Sign Recon: A Traffic Sign Scanner Website with CNN Integration
308	Survey Paper on Road rage and Proposed Solutions related to Traffic Management
319	Emergency Evacuation Information System Using IoT
329	GeneticAlgorithm&Decision Table Base IntrusionDetection
405	Investigating the Relationships between Smoking, Anxiety, and Psychological Distress via SPSS Analysis

**3rd INTERNATIONAL CONFERENCE ON UNIVERSAL THREATS IN EXPERT APPLICATIONS & SOLUTIONS
 Paper Presentation Schedule for UNI-TEAS 2024 Part 2 on 8th -9th January 2024
 at IES University, Bhopal**

8th January 2024 - 3:00 PM - 4:30 PM - Technical Sessions 10

Paper ID	Paper Title
185	EARLY DETECTION OF GLIOMA, MENINGIOMMA AND PITUTARY TUMORS OF THE BRAIN USING DEEP LEARNING
187	Estimation of Medical Expenses using Machine Learning
198	Covid-19 Detection Using Fourier-Bessel Series Expansion Based Dyadic Decomposition and CNN
201	A Review of Anomaly-based Multiple Intrusion Detection Methods Using a Feature-Based Deep Learning Approach
207	Building Robust Fraud Detection Model for Insurance Claims Using SMOTE
315	Plant Classification using Conv Neural Network
322	E-Commerce Product Review Analysis Using Machine Learning Techniques
327	DETECTING AND ELIMINATING NEGATIVE CHAOS CREATING TWEETS USING CRISIS CAUSING TWEET ELIMINATION ALGORITHM (CCTE)

8th January 2024 - 3:00 PM - 4:30 PM - Technical Sessions 11

Paper ID	Paper Title
334	A Unified DL Framework for Dual Cancer Diagnosis: Responding to Environmental and Health Challenges
336	Eye Disease Detection Using CNN, Resnet and Vgg16
341	ANN based Interleaved Synchronous Rectifier for Electric Vehicle Charging
342	Enhanced Keyword Immediacy Exploration in Composite Statistics Grids to progress in Networks
351	Smart Digital Urometer for Monitoring Urine Volume and Specific Gravity in Critical Care Unit
360	IoT Based Fault Monitoring of Industrial Drives using Multimodal Sensor signals
403	Smart IoT based cardiac devices for ambulatory health-care monitoring
